

Louisiana Department of Health and Hospitals
Health Plan Advisory 13-5
June 28, 2013

Update regarding fees related to the new 2013 HCPCS codes:

It has been brought to the attention of DHH that some of the fees for the new 2013 HCPCS codes were inadvertently added prior to budgetary reductions for Type of Service (TOS) 07 only. Additionally, revisions have been made to CPT codes 95017 and 95018 to accurately reflect the new descriptions, units, and fees. The affected CPT codes have been corrected and the Professional Services Fee Schedule has been updated. DHH will recycle impacted claims for the Fee-for-Service and Shared Plans for potential recoupment and/or adjustment of funds. No action is required by providers.
